

# THAMARA GERIG

• FRONT - END DEVELOPER •

## ABOUT ME

After studying two years of Fine Arts, one year abroad, and living in three cities, I realized building user-friendly and easy-to-use websites were my true passion.

I seek to learn from new technologies and actively participate in the community. I always like to provide dynamism, perseverance, and optimism!

## EDUCATION

2019 • The World Wide Web Consortium (W3C)  
Front-End Web Development | 200hrs

2019 • Duke University  
Programming Foundations with JavaScript,  
HTML and CSS | 60hrs

## EXPERIENCE

### Z1

Front-End Developer

2020 - Now

- Developed multiple Products using React, GraphQL, and Apollo.
- Worked closely with clients to meet project requirements, and desired functionalities.
- Focused on developing reusable, maintainable, and accessible components.

### Dfutura
